

Application for a hospital authority to prescribe and/or supply pharmaceutical benefits and/or highly specialised drugs

Purpose of this form

Complete this form if you are a hospital authority requesting approval under section 94 or section 100 of the *National Health Act 1953* to:

- prescribe highly specialised drugs only in respect of a private hospital; or
- supply pharmaceutical benefits and highly specialised drugs in respect of a private hospital; or
- supply pharmaceutical benefits and highly specialised drugs in respect of a public hospital participating in the Pharmaceutical Reforms; or
- claim for the supply of highly specialised drugs in respect of a public hospital where the dispensing of those drugs is undertaken by a third party; or
- supply highly specialised drugs in respect of a public hospital not participating in the Pharmaceutical Reforms.

Important information

Where a hospital authority seeks approval under section 94 or section 100 of the *National Health Act 1953* in respect of more than one hospital, a separate application must be made for each hospital.

In order for a particular hospital to be eligible, a statement must have been made under subsection 121-5(6) of the *Private Health Insurance Act 2007* that the hospital is a private or public hospital.

Public hospitals

Some states and territories have signed bilateral agreements for Pharmaceutical Reform Arrangements (the Arrangements). The National Healthcare Agreement allows for those states and territories participating in the Arrangements to charge the Pharmaceutical Benefits Scheme for pharmaceuticals for specific categories of patients as provided for in the Arrangements.

Individual public hospitals in each participating state and territory must liaise with their state or territory health department prior to making this application to supply pharmaceutical benefits and/or highly specialised drugs. The respective state or territory health department must then notify the Australian Government Department of Health before this application can be processed.
